

“YOU DESERVE A GOOD REST...”

Fit the ultimate accessory to your car without compromise

VEBA VEHICLE SPECIFIC HEADREST PODS

New from VEBA – a solution that’s not available anywhere else – headrest monitor installation pods for the brand new BMW X5 & 5 Series, Mercedes C Class, ML Class, R Class & E Class.

Because these cars feature an active headrest safety system, standard headrest monitor install is not possible – instead, an innovative solution is required – and VEBA have created it!

These bespoke pods are designed to match interior materials and colours exactly – they simply fit onto the cars existing headrests without compromise to either appearance or OEM safety features.

There are a variety of vehicle specific options available – The pods come in pairs and are fitted with VEBA AV65MK 6” Monitors and also include a switcher – allowing you to instantly switch sources from DVD player to games console for instance.

VEBA also offer a system kit, comprising headrest pods, switcher, AV65MK Monitors and a VEBA DVD headunit with a choice of single or 6 disc function.

Put simply – If you want to install headrest monitors into these cars, this is the only way it can be done.

You deserve a good rest and you’ve certainly earned it – so don’t compromise, accessorise!
